

BRÜ CLEAN SYSTEM

A pre-engineered wastewater treatment system designed to help craft brewers save money & comply with local regulations easily.

BRÜ CLEAN is the only proven chemical-free system that reduces BODs, TSS, TKN, TP and pH levels safely below discharge requirements.

Eliminate costly chemicals.
Ideal for organic and responsible brands.

Now small and large craft breweries and brew pubs can avoid environmental penalties and dramatically reduce water usage affordably and be environmental citizens.

Fastest ROI for any brewer's capital investment:

- Help eliminate surcharges
- Provide chemical-free wastewater treatment
- Reuse water + reduce environmental impact
- Provide a plug + play solution with the smallest footprint
- Support brewers with access to government grant + financing

BRÜ CLEAN SYSTEM

Keep costs down.

Simple to operate, easy to maintain by brewery staff.
No specialized training needed. No expensive repairs.

Easy to implement + be self-sufficient.

AVERAGE TREATMENT RESULTS:

	REGULATION (mg/l)	Avg. Before Treatment	Avg. After Treatment
BOD	300	6900	99
TKN	100	190	23
TP	10	93	2.6
TSS	350	5400	35
pH	6 to 8	5.4	7
